42nd UAE National Day Celebrated

02-03 December 2013

After the successful win of the Dubai to host the EXPO 2020, the joy of celebrating this year's 42nd UAE National Day doubled. Emirates Thalassemia Society left no stone unturned to unite the UAE Thalassemia community on this auspicious occasion. 2nd December 2013 marked the auspicious 42nd UAE National Day, and to make it even more extraordinary Emirates Thalassemia Society (ETS) geared up to celebrate this special day with Thalassemia patients, doctors, and medical staff in hospitals

all over UAE.

ETS planned a yet another journey to visit patients in different Emirates of UAE from 24th-28th November 2013 to celebrate zealously & spread happiness and love amongst the Thalassemia patients in UAE. This is a kind of a 'Social Support' from the society, which it always offers the Thalassemia patients in unison. The tour kick started on 24th November where patients & the respective hospitals welcomed the ETS crew with even more joy & highly spirited enthusiasm. ETS organized a fun filled & colorful arts & crafts workshop which included UAE themed pattern art painting, mirror painting, T-Shirt painting, nail art, traditional competitions & much more. All the Thalassemia patients, doctors, nurses, & families participated actively & expressed their admiration to hold the workshop every year in a row. In the end of the tour we successfully accomplished our aim of uniting and building bridges between various emirates of UAE and managed to spread sheer happiness, fun, entertainment and a celebration that shall last forever in the memories of our thalassemia patients.

shall last forever in the memories of our thalassemia patients.

For Emirates Thalassemia Society, every celebration is an opportunity & a platform to show social, moral & complete support to the Thalassemia patients. Our committed team of Board Members & the staff takes it as a challenge to each time and accomplishes it without fail to make the Thalassemia patients in UAE feel that we are always there to care and support them in the best possible ways!

Emirates Thalassemia Society is where the Thalassemia patients are!'
